

First Bank Chicago

Community Reinvestment Act Public File

As a full-service financial institution, First Bank Chicago is dedicated to the development of various initiatives intended to support the financial needs of the residents within its communities. In addition to providing a contemporary mix of financial products and services, our institution strives to provide specialized initiatives to support the specific financial needs throughout our communities, which are collectively designated as our Facilities-Based Assessment Area. Various products and activities are designed to support those geographies and individuals defined as financially disadvantaged.

This digital CRA Public File provides the following information summarizing our institution's Community Reinvestment Act performance and activities within our communities. Clicking each link below will take you directly to the corresponding section.

INSTITUTION RATING

INSTITUTION'S CRA RATING: This institution is rated **Satisfactory**.

An institution in this group has a satisfactory record of helping to meet the credit needs of its AA, including low- and moderate-income neighborhoods, in a manner consistent with its resources and capabilities.

PERFORMANCE LEVELS	PERFORMANCE TESTS		
	Lending Test*	Investment Test	Service Test
Outstanding			
High Satisfactory			X
Low Satisfactory	X	X	
Needs to Improve			
Substantial Noncompliance			
<i>* The Lending Test is weighted more heavily than the Investment and Service Tests when arriving at an overall rating.</i>			

The Lending Test is rated Low Satisfactory.

- Lending levels reflects adequate responsiveness to credit needs in the AA.
- An adequate percentage of loans are made in the bank's AA.
- The geographic distribution of loans reflects poor penetration throughout the AA.
- The distribution of borrowers reflects, given the product lines offered by the bank, adequate penetration among business customers of different sizes in the AA.
- The bank has a relatively high level of community development loans in the AA.
- The bank uses innovative and/or flexible lending practices in order to serve credit needs in the AA.

The Investment Test is rated Low Satisfactory.

- Although rarely in a leadership position, the institution has an adequate level of qualified community development investments and grants, particularly those that are not routinely provided by private investors.
- The institution exhibits good responsiveness to credit and community economic development needs in the AA.

- The institution occasionally uses innovative or complex investments to support community development initiatives.

The Service Test is rated High Satisfactory.

- Delivery systems are reasonably accessible to essentially all portions of the institution's AA.
- To the extent that changes have been made, the institution's opening and closing of branches has not adversely affected the accessibility of its delivery systems, particularly in low- and moderate-income geographies and to low- and moderate-income individuals.
- Services (including where appropriate, business hours) do not vary in a way that inconveniences certain portions of the AA, particularly low- and moderate-income geographies and/or individuals.
- The institution is a leader in providing community development services.

DESCRIPTION OF INSTITUTION

First Bank Chicago (FBC), formerly known as First Bank of Highland Park, is a commercial bank and wholly-owned subsidiary of First Bank Chicago Corp., a one-bank holding company in Highland Park, Illinois. The bank opened a loan production office (LPO) in Westchester, Illinois in March 2022, with no other offices opened or closed during the evaluation period. FBC does not have any affiliates that offer lending products. The institution received an overall “Satisfactory” rating at its previous FDIC Performance Evaluation as of March 9, 2020, based on Interagency Large Bank CRA Examination Procedures.

FBC operates three full-service offices in northern Illinois. The main office is located in Highland Park (Lake County), with one branch in Northbrook, Illinois (Cook County), and one branch in Skokie, Illinois (Cook County). The Highland Park office is located in a middle-income geography, the Northbrook branch in upper-income geography, and the Skokie branch in a moderate-income geography. All offices are located within 15 miles of one another. The new LPO is located approximately 25 miles south of the main office in Westchester, Illinois.

FBC is primarily a commercial lender, with an emphasis on commercial lease financing and commercial real estate lending. The leases are typically for items such as office equipment. Commercial lease financing is with lessors from across the nation. By nature, the lessors are not small businesses nor are the lessees, though the vast majority of lease loans are originated in amounts of \$1.0 million or less.

In addition, FBC offers traditional commercial equipment loans and lines of credit, and a range of consumer credit products including home equity lines of credit and consumer installment loans. Home mortgage lending is primarily for multi-family dwellings. The majority of the 1-4 family residential loans are for non-owner occupied investor properties. Deposit products consist of an array of checking, savings, money market, and certificate of deposit accounts. FBC also offers online banking, automated telephone banking, access to automated teller machines (ATMs), and drive-through facilities at all office locations.

According to the December 31, 2022 Consolidated Reports of Condition and Income (Call Report), FBC reported total assets of \$2.1 billion, total loans of \$1.4 billion, and total deposits of \$1.6 billion. As of December 31, 2022, FBC’s net loan-to-deposit ratio was 87.3 percent, and its net loan-to-asset ratio was 68.5 percent. Additionally, the bank’s investment portfolio totaled \$338.7 million, which represents 16.5 percent of total assets.

FBC experienced modest growth in both assets and deposits, though a small decline in loans since the previous CRA evaluation. Total assets increased by \$190.5 million, or 10.2 percent, and total loans decreased by \$53.7 million, or 3.6 percent. Loan growth by dollar volume has been primarily in construction lending followed by multi-family lending. More specifically, from December 31, 2019, to December 31, 2022, commercial and industrial loans decreased \$143.2 million (18.1 percent) and multi-family lending increased \$47.4 million (14.6 percent) and construction lending increased \$23.5 million (26.1 percent).

Loan Portfolio Distribution as of 12/31/2022		
Loan Category	\$(000s)	%
Construction and Land Development	113,630	8.0
1-4 Family Residential	73,603	5.2
Multi-family (5 or more) Residential	372,529	26.3
Commercial Real Estate	205,953	14.5
Total Real Estate Loans	765,715	54.0
Commercial and Industrial	648,363	45.7
Consumer Purpose	4,211	0.3
Other Loans	7	0.0
Total Loans	1,418,296	100.0
<i>Source: Reports of Condition and Income. Due to rounding, totals may not equal 100.0</i>		

Examiners did not identify any financial or other legal impediments that hinder the bank's ability to provide credit within its AA.

DESCRIPTION OF ASSESSMENT AREA

The CRA requires each financial institution to define one or more AAs within which its CRA performance will be evaluated. FBC has designated a single AA that includes all of Cook County, Illinois, located within the Chicago-Naperville-Evanston, Illinois Metropolitan Division (Chicago MD) and all of Lake County, Illinois, located within the Lake County-Kenosha County, Illinois-Wisconsin Metropolitan Division (Lake County MD). Both MDs are part of the Chicago-Naperville, IL-IN-WI Chicago Combined Statistical Area. The AA is consistent with the requirements of the CRA.

Economic and Demographic Data

The AA includes all 1,473 census tracts in Cook and Lake Counties. These tracts reflect the following income designations according to the 2015 American Community Survey (ACS) data:

- 267 (18.1 percent) low-income tracts,
- 410 (27.8 percent) moderate-income tracts,
- 365 (24.8 percent) middle-income tracts,
- 415 (28.2 percent) upper-income tracts, and
- 16 (1.1 percent) census tracts with no income designation.

The following table reflects lower levels of owner-occupied housing units in low- and moderate-income geographies (29.2 percent) within the AA and higher concentrations of rental units (52.3 percent). This data highlights some obstacles financial institutions might face in originating home mortgage loans in these geographies.

According to the 2021 D&B data, 535,608 businesses operated in the AA. The following table shows only 8.0 percent of the businesses are located in low-income census tracts and 20.6 percent are in moderate-income census tracts. The analysis under the Geographic Distribution criterion compares the distribution of small business loans by geography to the percentage of businesses

located in each geography. This data highlights some of the challenges financial institutions face in originating small business loans in these geographies.

The following table illustrates select demographic characteristics of the AA.

Demographic Information of the Assessment Area						
Assessment Area: Cook and Lake Counties, IL						
Demographic Characteristics	#	Low % of #	Moderate % of #	Middle % of #	Upper % of #	NA* % of #
Geographies (Census Tracts)	1,473	18.0	27.9	24.6	28.4	1.1

			Families Below Poverty Level			12.5%
Source: 2015 ACS and 2021 D&B Data Due to rounding, totals may not equal 100.0% (*) The NA category consists of geographies that have not been assigned an income classification.						

The analysis of small business loans under the Borrower Profile criterion compares the distribution of businesses by gross annual revenues (GARs). The GARs of businesses operating in the AA in 2021 are as follows:

- 87.5 percent report \$1.0 million or less,
- 4.7 percent report greater than \$1 million, and
- 7.8 percent did not report revenues to D&B.
-

Service industries represent the largest portion of businesses in the AA at 37.2 percent; followed by retail trade (10.5 percent); finance, insurance, and real estate (10.5 percent); construction (5.2 percent); and transportation and communication (5.0 percent). In addition, 57.9 percent of businesses have four or fewer employees, and 91.2 percent operate from a single location.

The 2020 and 2021 FFIEC-updated median family income (MFI) level is used to analyze home mortgage loans under the Borrower Profile criterion. The table below contains information on the MFIs by category.

Median Family Income Ranges				
Median Family Incomes	Low <50%	Moderate 50% to <80%	Middle 80% to <120%	Upper ≥120%
Chicago-Naperville-Evanston, IL Median Family Income (16984)				
2020 (\$84,800)	<\$42,400	\$42,400 to <\$67,840	\$67,840 to <\$101,760	≥\$101,760
2021 (\$87,100)	<\$43,550	\$43,550 to <\$69,680	\$69,680 to <\$104,520	≥\$104,520
Lake County-Kenosha County, IL-WI Median Family Income (29404)				
2020 (\$103,400)	<\$51,700	\$51,700 to <\$82,720	\$82,720 to <\$124,080	≥\$124,080
2021 (\$102,500)	<\$51,250	\$51,250 to <\$82,000	\$82,000 to <\$123,000	≥\$123,000
<i>Source: FFIEC</i>				

Data obtained from the U.S. Bureau of Labor Statistics reflect that the 2022 year-end unemployment rate was 4.7 percent for the State of Illinois. The unemployment rates for Cook and Lake Counties were 4.6 percent and 4.1 percent, respectively. These unemployment rates reflect a small increase since the previous evaluation when the 2018 year-end unemployment rates were 4.3 percent for Illinois, 4.5 percent for Cook County and 4.0 percent for Lake County. While unemployment is up slightly from the last exam, the current rates are substantially below the highs in April 2020 when unemployment for Cook County was 19.0 percent and Lake County was 14.2 percent due to COVID-19.

Competition

FBC's AA is highly competitive in the market for financial services. Data from the FDIC Deposit Market Share Report as of June 30, 2022, shows 1,358 offices of 105 financial institutions operating within the AA. FBC maintains a 0.31 percent deposit market share in the AA, ranking 26th among all institutions. Larger national financial institutions operating offices within the AA hold the majority of the market share.

Aggregate small business lending data provides insight into the level of demand for small business loans within the AA. Aggregate lending data for 2021 shows 295 lenders reported 202,271 small business loan originations, indicating a high degree of competition for this loan product. FBC ranked 46th capturing 0.13 percent of the market share.

Additionally, a high level of competition in the AA exists for home mortgage loans among banks, credit unions, and non-depositor mortgage lenders. Given that nearly all home mortgage loans originated by FBC are non-owner occupied, examiners compared FBC to aggregate data considering only investment properties. According to the 2021 aggregate data, 455 lenders reported 16,561 non-owner occupied home mortgage originations. FBC ranked 107th capturing 0.17 percent of the market share by number, though by dollar FBC ranked 21st with a 1.17 market share.

Community Contacts

Examiners reviewed two recent community contacts with non-profit organizations focusing on small business and affordable housing needs to identify and understand the credit and community development needs of the AA. The information helps examiners determine area needs and whether local financial institutions are responsive to these needs. The contacts stated needs exist for increased access to affordable home mortgage loans (including rehabilitation loans), as well as a need for small business loans under \$100,000, start-up capital, and financial education for entrepreneurs. The contact noted that there are opportunities for banks to make loans directly or participate through loan pools operated by various non-profit entities. In addition, the need for affordable single and multi-family housing units, as well as loans to finance these properties is significant throughout Chicago and suburban Chicago areas.

Credit and Community Development Needs and Opportunities

Considering the information from the community contacts, discussions with management, and demographic data, examiners determined that there are community development needs for affordable housing, small business lending, and financial literacy for small businesses and retail customers in the AA. The relatively high level of low- and moderate-income families along with the percentage of businesses with revenues of \$1.0 million or less is reflective of these credit and service needs.

The AA provides numerous opportunities for involvement in community development activities. The Chicago metropolitan area contains empowerment zones and tax increment financing districts that are designated by local or state government entities for revitalization, stabilization, or economic development. These areas were established to stimulate economic activities that include job preservation and creation, and business and residential development. Additionally, the State of Illinois and local community organizations sponsor various programs to support affordable housing and small business lending initiatives.

SCOPE OF EVALUATION

General Information

This evaluation covers the period from the previous evaluation dated March 9, 2020, to the current evaluation dated February 21, 2023. Examiners used the Interagency Large Bank CRA Examination Procedures to evaluate FBC's CRA performance. These procedures include three tests: the Lending Test, Investment Test, and Service Test, as detailed in the Appendix.

The bank's overall rating is determined using a points system as defined in the CRA regulation. Banks must achieve at least a Low Satisfactory rating under the Lending Test to obtain an overall Satisfactory rating.

Examiners relied upon records provided by the bank, 2015 ACS five-year estimates, D&B demographic data, community contacts, and loan information reported under Home Mortgage Disclosure Act (HMDA) and CRA. FBC's CRA performance was analyzed in relation to the bank's performance context, which includes (but is not limited to) bank size and structure, financial condition, loan mix, resources, limitations, AA demographics, economic factors, competition, loan

demand, and available opportunities. Examiners used information obtained from community contact interviews to help establish the performance context for this CRA evaluation. The community contact interviewees are representatives in the AA and are not affiliated with the bank.

In March 2020, a national emergency was declared in the United States as the "coronavirus disease 2019" (COVID-19) pandemic. Many states and local governments, including Chicago, imposed strict measures to restrain certain aspects of public life in an effort to contain COVID-19. These restrictions have resulted in a significant disruption of the national economy and financial markets. Refer to subsequent sections of the performance evaluation for details on how COVID-19 impacted the AA during the evaluation period.

Activities Reviewed

FBC's CRA performance is based on an analysis of the universe of small business loans and leases and multi-family home mortgage loans. Small farm lending was not evaluated as FBC does not originate such loans and consumer loans were not reviewed, as the volume is nominal. The universe of small business loans reported by the bank pursuant to the CRA data collection reporting requirements during the review period in 2020 and 2021 were reviewed. FCB originated 487 small business loans totaling \$83.3 million in 2020, and 387 loans totaling \$83.4 million in 2021. The bank's 2022 performance was not considered as of the exam date, as FBC's submission of home mortgage and small business data was not due until March 1.

Home mortgage loans subject to HMDA reporting requirements were reviewed for 2020 and 2021. During the review period, FBC originated 33 home mortgage loans totaling \$49.6 million in 2020 and 34 loans totaling \$113.6 million in 2021. However, the vast majority of home mortgage loans were for non-owner occupied multi-family or 1-4 family investment properties. During the review period, 63 of the 67 of the total home mortgage loans for 2020 and 2021 by number and \$157.8 million of the \$163.1 million by dollar were secured by non-owner occupied properties. Given differences in demographic and aggregate data not including owner-occupied home mortgages and the nominal volume of owner-occupied loans, only comparisons to non-owner occupied home mortgage loans was performed.

Given the volume of small business loans originated and the bank's business focus, small business loans received more weight when drawing conclusions. Further, while both number and dollar volume of loans were considered, discussion of the bank's performance is limited to loans by number, as performance by dollar volume did not lead to different conclusions or noticeable trends. Lastly, as aggregate data for both small business loans and home mortgage loans is a better measure of actual demand for loans, discussions of FBC's geographic and borrower performance will be limited to comparisons to aggregate performance.

The evaluation includes community development loans, qualified investments, and services, initiated or maintained since the previous CRA evaluation. Investments that were made before the prior evaluation and that remain outstanding are included at the current book values as prior period investments. Examiners evaluated the quantitative levels of community development loans, investments, and services based on the financial capacity of FCB, as well as the qualitative impact to the AA.

Finally, examiners reviewed delivery systems for providing retail banking services and retail banking products and services targeted toward low- and moderate -income individuals or small businesses.

CONCLUSIONS ON PERFORMANCE CRITERIA

LENDING TEST

The Lending Test rating is “Low Satisfactory.” FBC’s lending performance evidences adequate responsiveness to the credit needs in the AA. This rating is derived after considering the following factors: good overall lending levels; a majority of loans in the AA; poor geographic distribution of loans; adequate loan distribution by borrower profile; use of innovative or flexible lending practices; and relatively high level of community development loans.

Lending Activity

Lending levels reflect adequate responsiveness to AA credit needs. The number and dollar volume of loans originated during the review period were reviewed. Examiners also reviewed market share reports, aggregate lending data, and demographic data for primary loan products to determine the bank’s level of lending. Market share reports provide greater context regarding competitive factors and the effects of the interest rate environment. Deposit market share data is reviewed to gain perspective on a bank’s presence in a community.

According to 2022 FDIC Summary of Deposit data, FBC maintains a deposit market share that ranks 26th of 105 financial institutions. This places FBC in the 75th percentile. Based on 2021 aggregate HMDA (for non-owner occupied loans) and 2021 CRA small business data, FBC home mortgage market share by dollar is in the 95th percentile (21st of 455) and for small business lending in the 83rd (46th percentile). Both of these exceed the bank’s deposit market share, which indicates that the bank’s lending levels are good.

During the review period, FBC originated 874 small business loans totaling approximately \$166.7 million and 67 home mortgage loans totaling approximately \$163.1 million.

FBC has maintained an average net loan-to-deposit (NLTD) ratio of 90.4 percent for the previous 12 quarters since the previous evaluation, which is indicative of a high level of loans in relation to the available deposits to fund loans. FBC’s NLTD was compared to five similarly situated institutions, which were selected based on similar asset size, loan concentrations, and complexity of operations. The average NLTD ratios of these institutions during the same 13-quarter period were 84.0 percent and ranged from 73.4 percent to 94.5 percent. The bank’s ratio is consistent with the similarly situated banks.

Assessment Area Concentration

An adequate percentage of loans are made in the AA. While, by dollar, less than a majority of small business loans were originated in the AA, by number and by overall dollars a majority of loans in the review period were originated in the AA.

The following table reflects the distribution of the bank’s loans inside and outside the AA.

Lending Inside and Outside of the Assessment Area										
Loan Category	Number of Loans				Total #	Dollar Amount of Loans \$(000s)				Total \$(000s)
	Inside		Outside			Inside		Outside		
	#	%	#	%		\$	%	\$	%

2020	302	62.0	185	38.0	487	39,039	46.9	44,226	53.1	83,265
2021	251	64.9	136	35.1	387	42,554	51.1	40,799	48.9	83,353
Subtotal	553	63.3	321	36.7	874	81,593	49.0	85,025	51.0	166,618
Total	614	65.2	327	34.8	941	236,374	71.7	93,377	28.3	329,751
Source: Bank Data. Due to rounding, totals may not equal 100.0%										

Geographic Distribution

The geographic distribution of loans reflects poor penetration throughout the AA. The poor distribution of small business loans and adequate distribution of home mortgage loans throughout the AA supports this conclusion. The analyses include only loans originated within the AA.

Small Business Lending

As noted in the following table, FBC's performance in both low- and moderate-income tracts significantly trails aggregate performance in both 2020 and 2021. While the bank's AA includes all of Cook County, the bank's branches are located in northern Cook and southern Lake County. Even considering performance in a smaller area consisting of an area covering tracts within a 20-mile radius of FBC's main office, performance remains poor.

Geographic Distribution of Small Business Loans						
Assessment Area: Cook and Lake Counties, IL						
Tract Income Level	% of Businesses	Aggregate Performance % of #	#	%	\$(000s)	%
Low						
2020	6.4	6.7	5	1.7	2,249	5.8
2021	8.0	9.2	6	2.4	3,237	7.6
Moderate						
2020	19.0	20.0	17	5.6	3,544	9.1
2021	20.6	23.6	23	9.2	2,509	5.9
Middle						
2020	25.8	26.9	83	27.5	14,926	38.2

Source: 2020 & 2021 D&B Data; Bank Data; 2020 & 2021 CRA Aggregate Data, "--" data not available. Due to rounding, totals may not equal 100.0%						

Home Mortgage Lending

Overall, FBC's distribution of home mortgage loans is adequate. As noted in the following table, performance in low-income tracts in 2020 slightly exceeds aggregate while 2020 performance in moderate-income tracts significantly exceeds aggregate. In 2021, performance in both low- and moderate-income tracts declines, and trails aggregate. While 2021 performance in both low- and moderate-tracts is poor, the relatively strong 2020 performance somewhat mitigates 2021's weaker results. Considering the bank's relatively strong 2020 performance, overall the geographic distribution of home mortgage loans is adequate.

Geographic Distribution of Non-owner Occupied Home Mortgage Loans						
Assessment Area: Cook and Lake Counties, IL						
Tract Income Level	% of Non-owner-Occupied Housing Units	Aggregate Performance % of #	#	%	\$(000s)	%
Low						
2020	20.3	12.7	4	13.8	10,530	22.8
2021	20.3	12.6	1	3.6	446	0.4

Borrower Profile

The distribution of loans to borrowers reflects, given the product lines offered by the institution, adequate penetration. No conclusions were drawn regarding the home mortgage lending given that a significant majority of the loans originated were to those with an income designation of not applicable (NA) which is typical for investment purpose and multi-family home mortgage loans.

Small Business Lending

The distribution of loans to borrowers reflects adequate penetration among businesses of different sizes. Performance is compared to the percentage of businesses with GARs of \$1.0 million or less (demographic) and aggregate data. Examiners applied more weight to the comparison of lending to aggregate data, as it is a better indicator of lending opportunities and demand in an AA. The distribution of small business loans to businesses with GARs of \$1.0 million or less slightly trailed, but is generally consistent with aggregate data in both 2020 and 2021. The following table details the distribution of small business loans by GAR of the businesses in the AA.

Distribution of Small Business Loans by Gross Annual Revenue Category						
Assessment Area: Cook and Lake Counties, IL						
Gross Revenue Level	% of Businesses	Aggregate Performance % of #	#	%	\$(000s)	%
<=\$1,000,000

Innovative or Flexible Lending Practices

FBC uses innovative and/or flexible lending practices to serve its AA's credit needs. The bank partnered with the Community Partners for Affordable Housing for the Critical Home Repair Program. FBC has also partnered and arranged for Small Business Administration (SBA) 504 loans. Further, in response to the COVID-19 pandemic, FBC participated in the SBA's Paycheck Protection Program (PPP). In 2021 and 2022, FBC originated 483 PPP loans totaling approximately \$46.9 million. PPP loans of \$1 million or less are included in FBC's small business loans reported under CRA requirements.

Community Development Loans

The institution made a relatively high level of community development loans in the AA. FBC's community development lending initiatives include affordable housing, economic development, community services, and revitalization and stabilization of low- or moderate-income geographies. The bank's loans are responsive to area credit and community development needs.

FBC originated 55 community development loans totaling \$99.5 million, which accounts for 7.3 percent of average net loans. This represents an increase in dollars compared to the 61 community development loans totaling approximately \$70.4 million (4.8 percent of average net loans) during the prior evaluation period. It is also consistent with three other comparable peer institutions in the AA. The three comparable institutions all were considered to have relatively high satisfactory performance for community development lending with ratios of 6.3 percent, 7.3 percent, and 7.5 percent of average net loans. The following table details FBC's community development loans.

Community Development Lending										
Activity Year	Affordable Housing		Community Services		Economic Development		Revitalize or Stabilize		Total	
	#	\$(000s)	#	\$(000s)	#	\$(000s)	#	\$(000s)	#	\$(000s)
2020	11	15,451	1	25	2	2,051	6	6,843	20	24,370
2021	11	27,691	2	2,005	1	156	2	20,801	16	50,653
2022	14	14,358	3	2,455	1	29	1	7,590	19	24,432
Total	36	57,500	6	4,485	4	2,236	9	35,234	55	99,455
<i>Source: Bank Records.</i>										

Examples of FBC's community development loans include:

- A \$2.5 million loan which funded purchase and renovation of a 48-unit affordable housing apartment building. The rents on all 48 units are below HUD's fair market rent levels.
- A \$7.6 million loan to renovate an existing storage facility located in a moderate-income tract. The renovation will modernize the facility, expand storage space, and create two additional jobs. The loan supports revitalization efforts in the area.
- A \$3.0 million line of credit to a community development non-profit. The line will support various affordable housing projects undertaken by the non-profit.
- An \$8.1 million investment in a note purchase pool. FBC is one of 33 investors in the pool and has committed to purchase notes over a 5-year period. The pool supports loans for affordable housing.
- A \$2.0 million SBA 504 loan to a small business. The loan will assist the company in expanding its operations and will create six new jobs.

INVESTMENT TEST

FBC's investment performance is Low Satisfactory given the community needs; the bank's financial capacity and business focus; investment and grant activities; and availability of investment opportunities. The Investment Test evaluates the bank's record of helping to meet the credit needs of its AA through qualified investments that benefit its AA or a broader statewide or regional area that includes the bank's AA.

Investment and Grant Activity

The institution has an adequate level of qualified community development investments and grants, although rarely in a leadership position. FBC made 382 qualified donations and grants totaling \$1.2 million and funded 35 qualified investments totaling \$16.5 million during the review period. The total qualified investments, donations, and grants represent 5.2 percent of total securities as of December 31, 2022. This level represents a small decline in both dollars and percentage of total investments from the prior examination when FBC reported \$18.4 million or 6.5 percent of average total securities. This level of investments is consistent with three other comparable peer institutions in the AA, which had qualified investments to total investments ratios of 1.7 percent, 4.7 percent, and 21.5 percent.

Qualified Investments										
Activity Year	Affordable Housing		Community Services		Economic Development		Revitalize or Stabilize		Totals	
	#	\$(000s)	#	\$(000s)	#	\$(000s)	#	\$(000s)	#	\$(000s)
Prior Period	3	988	14	5,858	6	2,245	-	-	23	9,091
2020	1	5,761	3	632	2	260	-	-	6	6,653
2021	-	-	-	-	2	58	-	-	2	58
2022	-	-	2	590	2	83	-	-	4	673
Subtotal	4	6,749	19	7,080	12	2,646	-	-	35	16,475
Qualified Grants & Donations	20	120	353	1,056	9	38	-	-	382	1,214
Total	24	6,869	372	8,136	21	2,684	-	-	417	17,689
<i>Source: Bank Data</i>										

Examples of FBC's investments include:

- Nineteen investments totaling approximately \$7 million in local municipal school bonds each supporting Illinois school districts that serve primarily low- and moderate-income students.
- A \$5.8 million investment in a CRA fund. The bank's investments in the fund support 27 affordable housing projects in the AA.
- A \$1.0 million investment in a Small Business Investment Company bond that provides loans to small businesses.

In addition to the investments, FBC made a significant volume of donations to various groups that support area credit and community development needs in the AA. The bank's donations are equivalent to 5.8 percent of net income over the three-year period 2020-2022.

Responsiveness to Credit and Community Development Needs

FBC exhibits good responsiveness to the credit and community development needs of the AA. As stated previously, identified AA needs include affordable housing and loans for small businesses. A significant portion of FBC's investments supports both needs.

Community Development Initiatives

FBC made occasional use of innovative or complex investments to support community development initiatives. FBC partnered with a local affordable housing organization to establish an Individual Development Account (IDA) Home Repair Savings program in which participant dollars are matched by the bank, up to \$500 per year, for use on repairs to homes purchased through assistance by the organization. FBC provided \$3,775 in matching to eight accounts during the review period.

SERVICE TEST

An overall assessment of High Satisfactory is assigned to the bank's services, considering its retail services and leadership in providing community development services.

Accessibility of Delivery Systems

Delivery systems are reasonably accessible to essentially all portions of the AA. FBC operates three offices; one is located in a middle-income census tract, another in an upper-income tract, and the third in a moderate-income tract. FBC also provides banking services through online banking and bill pay, telephone banking, mobile deposit, and 24-hour ATMs at all office locations. FBC's alternate delivery systems are consistent with those offered by other area financial institutions.

Changes in Branch Locations

There have not been changes in the bank's branch locations. FBC did add an LPO in Westchester, Illinois that offers commercial loans only, though this new office has not significantly impacted the availability of delivery services, particularly to low- and moderate-income persons or areas.

Reasonableness of Business Hours and Services

Services, including business hours, do not vary in a way that inconveniences portions of the AA, particularly low- and moderate-income geographies and/or individuals. All offices have 24-hour deposit-taking ATMs and lobby hours from 8:30am to 5:00pm Monday through Friday. Drive-up facilities are located at the Highland Park and Northbrook branches. There is no drive-up at the Skokie branch. Saturday lobby hours are only available at the Highland Park branch. While services offered vary slightly at the three branch locations, the variances do not significantly inconvenience low- or moderate-income persons or small businesses.

As mentioned in the Investment Test section, FBC has partnered with a local affordable housing organization to provide IDS accounts to assist low- and moderate-income individuals save for home repairs. FBC will match amounts deposited into accounts up to \$500 per year. During the evaluation period, FBC opened eight accounts.

Community Development Services

FBC is a leader in providing community development services. During the evaluation period, bank employees, management, and Board members participated in 334 qualifying community development services with 71 instances, totaling 7,357 hours. The services qualify for consideration as they use the individuals' financial expertise in serving on Boards of Directors, finance committees, fundraising committees, and planning committees for numerous organizations, including organizations that serve low- and moderate-income individuals or support affordable housing in the AA. Additionally, FBC's volume of services significantly exceeded the level of services provided by similarly situated institutions in the AA, demonstrating a continuing commitment to serving its AA.

Community Development Services (Hours of Service)					
Activity Year	Affordable Housing	Community Services	Economic Development	Revitalize or Stabilize	Totals
	#	#	#	#	#
2020	24	2,192	34	-	2,250
2021	38	2,308	29	-	2,375
2022	57	2,644	31	-	2,732
Total	119	7,144	94	-	7,357
<i>Source: Bank Data</i>					

Examples of FBC's community development serves include:

- Bank employees and directors serve on the Boards of 46 different community development originations. From 2020 through 2022, bank staff spent 2,724 hours as board members of these organizations.
- A bank Senior Vice President serves on the loan committee of an organization that provides capital and technical expertise to non-profits and communities that focus on community development initiatives.
- A bank Vice President volunteers with an organization that supports small businesses impacted by the July 4, 2021, shooting in Highland Park, Illinois.
- Four bank employees volunteer with an organization that provides career and vocational services to low-income individuals with disabilities.
- Ten bank employees make up the FBC Financial Literacy Team. The team provided 13 instances of financial education to low- and moderate-income individuals.

DISCRIMINATORY OR OTHER ILLEGAL CREDIT PRACTICES REVIEW

FBC's compliance with the laws relating to discrimination and other illegal credit practices was reviewed, including the Equal Credit Opportunity and Fair Housing Acts. Examiners did not identify any discriminatory or other illegal credit practices; therefore, this consideration did not affect the institution's overall CRA rating.

APPENDICES

LARGE BANK PERFORMANCE CRITERIA

Lending Test

The Lending Test evaluates the bank's record of helping to meet the credit needs of its assessment area(s) through its lending activities by considering a bank's home mortgage, small business, small farm, and community development lending. If consumer lending constitutes a substantial majority of a bank's business, the FDIC will evaluate the bank's consumer lending in one or more of the following categories: motor vehicle, credit card, other secured, and other unsecured. The bank's lending performance is evaluated pursuant to the following criteria:

- 1) The number and amount of the bank's home mortgage, small business, small farm, and consumer loans, if applicable, in the bank's assessment area;
- 2) The geographic distribution of the bank's home mortgage, small business, small farm, and consumer loans, if applicable, based on the loan location, including:
 - i. The proportion of the bank's lending in the bank's assessment area(s);
 - ii. The dispersion of lending in the bank's assessment areas(s); and
 - iii. The number and amount of loans in low-, moderate-, middle- and upper-income geographies in the bank's assessment area(s);
- 3) The distribution, particularly in the bank's assessment area(s), of the bank's home mortgage, small business, small farm, and consumer loans, if applicable, based on borrower characteristics, including the number and amount of:
 - i. Home mortgage loans low-, moderate-, middle- and upper-income individuals
 - ii. Small business and small farm loans to businesses and farms with gross annual revenues of \$1 million or less;
 - iii. Small business and small farm loans by loan amount at origination; and
 - iv. Consumer loans, if applicable, to low-, moderate-, middle- and upper-income individuals;
- 4) The bank's community development lending, including the number and amount of community development loans, and their complexity and innovativeness; and
- 5) The bank's use of innovative or flexible lending practices in a safe and sound manner to address the credit needs of low- and moderate-income individuals or geographies.

Investment Test

The Investment Test evaluates the institution's record of helping to meet the credit needs of its assessment area(s) through qualified investments that benefit its assessment area(s) or a broader statewide or regional area that includes the bank's assessment area(s). Activities considered under the Lending or Service Test may not be considered under the investment test. The bank's investment performance is evaluated pursuant to the following criteria:

- 1) The dollar amount of qualified investments;
- 2) The innovativeness or complexity of qualified investments;
- 3) The responsiveness of qualified investments to available opportunities; and
- 4) The degree to which qualified investments are not routinely provided by private investors.

Service Test

The Service Test evaluates the bank's record of helping to meet the credit needs of its assessment area(s) by analyzing both the availability and effectiveness of the bank's systems for delivering retail banking services and the extent and innovativeness of its community development services.

The bank's retail banking services are evaluated pursuant to the following criteria:

- 1) The current distribution of the bank's branches among low-, moderate-, middle-, and upper-income geographies;
- 2) In the context of its current distribution of the bank's branches, the bank's record of opening and closing branches, particularly branches located in low- or moderate-income geographies or primarily serving low- or moderate-income individuals;
- 3) The availability and effectiveness of alternative systems for delivering retail banking services (*e.g.*, RSFs, RSFs not owned or operated by or exclusively for the bank, banking by telephone or computer, loan production offices, and bank-at-work or bank-by-mail programs) in low- and moderate-income geographies and to low- and moderate-income individuals; and
- 4) The range of services provided in low-, moderate-, middle-, and upper-income geographies and the degree to which the services are tailored to meet the needs of those geographies.

The bank's community development services are evaluated pursuant to the following criteria:

- 1) The extent to which the bank provides community development services; and
- 2) The innovativeness and responsiveness of community development services.

GLOSSARY

Aggregate Lending: The number of loans originated and purchased by all reporting lenders in specified income categories as a percentage of the aggregate number of loans originated and purchased by all reporting lenders in the metropolitan area/assessment area.

American Community Survey (ACS): A nationwide United States Census survey that produces demographic, social, housing, and economic estimates in the form of five year estimates based on population thresholds.

Area Median Income: The median family income for the MSA, if a person or geography is located in an MSA; or the statewide nonmetropolitan median family income, if a person or geography is located outside an MSA.

Assessment Area: A geographic area delineated by the bank under the requirements of the Community Reinvestment Act.

Census Tract: A small, relatively permanent statistical subdivision of a county or equivalent entity. The primary purpose of census tracts is to provide a stable set of geographic units for the presentation of statistical data. Census tracts generally have a population size between 1,200 and 8,000 people, with an optimum size of 4,000 people. Census tract boundaries generally follow visible and identifiable features, but they may follow nonvisible legal boundaries in some instances. State and county boundaries always are census tract boundaries.

Combined Statistical Area (CSA): A combination of several adjacent metropolitan statistical areas or micropolitan statistical areas or a mix of the two, which are linked by economic ties.

Community Development: For loans, investments, and services to qualify as community development activities, their primary purpose must:

- (1) Support affordable housing for low- and moderate-income individuals;
- (2) Target community services toward low- and moderate-income individuals;
- (3) Promote economic development by financing small businesses or farms; or
- (4) Provide activities that revitalize or stabilize low- and moderate-income geographies, designated disaster areas, or distressed or underserved nonmetropolitan middle-income geographies.

Community Development Corporation (CDC): A CDC allows banks and holding companies to make equity type of investments in community development projects. Bank CDCs can develop innovative debt instruments or provide near-equity investments tailored to the development needs of the community. Bank CDCs are also tailored to their financial and marketing needs. A CDC may purchase, own, rehabilitate, construct, manage, and sell real property. Also, it may make equity or debt investments in development projects and in local businesses. The CDC activities are expected to directly benefit low- and moderate-income groups, and the investment dollars should not represent an undue risk on the banking organization.

Community Development Financial Institutions (CDFIs): CDFIs are private intermediaries (either for profit or nonprofit) with community development as their primary mission. A CDFI facilitates the flow of lending and investment capital into distressed communities and to individuals who have been unable to take advantage of the services offered by traditional financial institutions. Some basic types of CDFIs include community development banks, community development loan funds, community development credit unions, micro enterprise funds, and community development venture capital funds.

A certified CDFI must meet eligibility requirements. These requirements include the following:

- Having a primary mission of promoting community development;
- Serving an investment area or target population;
- Providing development services;
- Maintaining accountability to residents of its investment area or targeted population through representation on its governing board of directors, or by other means;
- Not constituting an agency or instrumentality of the United States, of any state or political subdivision of a state.

Community Development Loan: A loan that:

- (1) Has as its primary purpose community development; and
- (2) Except in the case of a wholesale or limited purpose bank:
 - (i) Has not been reported or collected by the bank or an affiliate for consideration in the bank's assessment area as a home mortgage, small business, small farm, or consumer loan, unless it is a multifamily dwelling loan (as described in Appendix A to Part 203 of this title); and
 - (ii) Benefits the bank's assessment area(s) or a broader statewide or regional area including the bank's assessment area(s).

Community Development Service: A service that:

- (1) Has as its primary purpose community development;
- (2) Is related to the provision of financial services; and
- (3) Has not been considered in the evaluation of the bank's retail banking services under § 345.24(d).

Consumer Loan(s): A loan(s) to one or more individuals for household, family, or other personal expenditures. A consumer loan does not include a home mortgage, small business, or small farm loan. This definition includes the following categories: motor vehicle loans, credit card loans, home equity loans, other secured consumer loans, and other unsecured consumer loans.

Core Based Statistical Area (CBSA): The county or counties or equivalent entities associated with at least one core (urbanized area or urban cluster) of at least 10,000 population, plus adjacent counties having a high degree of social and economic integration with the core as measured through commuting ties with the counties associated with the core. Metropolitan and Micropolitan Statistical Areas are the two categories of CBSAs.

Distressed Middle-Income Nonmetropolitan Geographies: A nonmetropolitan middle-income geography will be designated as distressed if it is in a county that meets one or more of the following triggers:

- (1) An unemployment rate of at least 1.5 times the national average;
- (2) A poverty rate of 20 percent or more; or
- (3) A population loss of 10 percent or more between the previous and most recent decennial census or a net migration loss of 5 percent or more over the 5-year period preceding the most recent census.

Family: Includes a householder and one or more other persons living in the same household who are related to the householder by birth, marriage, or adoption. The number of family households always equals the number of families; however, a family household may also include non-relatives living with the family. Families are classified by type as either a married-couple family or other family. Other family is further classified into “male householder” (a family with a male householder and no wife present) or “female householder” (a family with a female householder and no husband present).

FFIEC-Estimated Income Data: The Federal Financial Institutions Examination Council (FFIEC) issues annual estimates which update median family income from the metropolitan and nonmetropolitan areas. The FFIEC uses American Community Survey data and factors in information from other sources to arrive at an annual estimate that more closely reflects current economic conditions.

Full-Scope Review: A full-scope review is accomplished when examiners complete all applicable interagency examination procedures for an assessment area. Performance under applicable tests is analyzed considering performance context, quantitative factors (e.g., geographic distribution, borrower profile, and total number and dollar amount of investments), and qualitative factors (e.g., innovativeness, complexity, and responsiveness).

Geography: A census tract delineated by the United States Bureau of the Census in the most recent decennial census.

Home Mortgage Disclosure Act (HMDA): The statute that requires certain mortgage lenders that do business or have banking offices in a metropolitan statistical area to file annual summary reports of their mortgage lending activity. The reports include such data as the race, gender, and the income of applicants; the amount of loan requested; and the disposition of the application (approved, denied, and withdrawn).

Home Mortgage Loans: Includes closed-end mortgage loans or open-end line of credits as defined in the HMDA regulation that are not an excluded transaction per the HMDA regulation.

Housing Unit: Includes a house, an apartment, a mobile home, a group of rooms, or a single room that is occupied as separate living quarters.

Limited-Scope Review: A limited scope review is accomplished when examiners do not complete all applicable interagency examination procedures for an assessment area. Performance under applicable tests is often analyzed using only quantitative factors (e.g., geographic distribution, borrower profile, total number and dollar amount of investments, and branch distribution).

Low-Income: Individual income that is less than 50 percent of the area median income, or a median family income that is less than 50 percent in the case of a geography.

Low Income Housing Tax Credit: The Low-Income Housing Tax Credit Program is a housing program contained within the Internal Revenue Code of 1986, as amended. It is administered by the U.S. Department of the Treasury and the Internal Revenue Service. The U.S. Treasury Department distributes low-income housing tax credits to housing credit agencies through the Internal Revenue Service. The housing agencies allocate tax credits on a competitive basis.

Developers who acquire, rehabilitate, or construct low-income rental housing may keep their tax credits. Or, they may sell them to corporations or investor groups, who, as owners of these properties, will be able to reduce their own federal tax payments. The credit can be claimed annually for ten consecutive years. For a project to be eligible, the developer must set aside a specific percentage of units for occupancy by low-income residents. The set-aside requirement remains throughout the compliance period, usually 30 years.

Market Share: The number of loans originated and purchased by the institution as a percentage of the aggregate number of loans originated and purchased by all reporting lenders in the metropolitan area/assessment area.

Median Income: The median income divides the income distribution into two equal parts, one having incomes above the median and other having incomes below the median.

Metropolitan Division (MD): A county or group of counties within a CBSA that contain(s) an urbanized area with a population of at least 2.5 million. A MD is one or more main/secondary counties representing an employment center or centers, plus adjacent counties associated with the main/secondary county or counties through commuting ties.

Metropolitan Statistical Area (MSA): CBSA associated with at least one urbanized area having a population of at least 50,000. The MSA comprises the central county or counties or equivalent entities containing the core, plus adjacent outlying counties having a high degree of social and economic integration with the central county or counties as measured through commuting.

Micropolitan Statistical Area: CBSA associated with at least one urbanized area having a population of at least 10,000, but less than 50,000.

Middle-Income: Individual income that is at least 80 percent and less than 120 percent of the area median income, or a median family income that is at least 80 and less than 120 percent in the case of a geography.

Moderate-Income: Individual income that is at least 50 percent and less than 80 percent of the area median income, or a median family income that is at least 50 and less than 80 percent in the case of a geography.

Multi-family: Refers to a residential structure that contains five or more units.

Nonmetropolitan Area (also known as non-MSA): All areas outside of metropolitan areas. The definition of nonmetropolitan area is not consistent with the definition of rural areas. Urban and rural classifications cut across the other hierarchies. For example, there is generally urban and rural territory within metropolitan and nonmetropolitan areas.

Owner-Occupied Units: Includes units occupied by the owner or co-owner, even if the unit has not been fully paid for or is mortgaged.

Qualified Investment: A lawful investment, deposit, membership share, or grant that has as its primary purpose community development.

Rated Area: A rated area is a state or multistate metropolitan area. For an institution with domestic branches in only one state, the institution's CRA rating would be the state rating. If an institution maintains domestic branches in more than one state, the institution will receive a rating for each state in which those branches are located. If an institution maintains domestic branches in two or more states within a multistate metropolitan area, the institution will receive a rating for the multistate metropolitan area.

Rural Area: Territories, populations, and housing units that are not classified as urban.

Small Business Investment Company (SBIC): SBICs are privately-owned investment companies which are licensed and regulated by the Small Business Administration (SBA). SBICs provide long-term loans and/or venture capital to small firms. Because money for venture or risk investments is difficult for small firms to obtain, SBA provides assistance to SBICs to stimulate and supplement the flow of private equity and long-term loan funds to small companies. Venture capitalists participate in the SBIC program to supplement their own private capital with funds borrowed at favorable rates through SBA's guarantee of SBIC debentures. These SBIC debentures are then sold to private investors. An SBIC's success is linked to the growth and profitability of the companies that it finances. Therefore, some SBICs primarily assist businesses with significant growth potential, such as new firms in innovative industries. SBICs finance small firms by providing straight loans and/or equity-type investments. This kind of financing gives them partial ownership of those businesses and the possibility of sharing in the companies' profits as they grow and prosper.

Small Business Loan: A loan included in "loans to small businesses" as defined in the Consolidated Report of Condition and Income (Call Report). These loans have original amounts of \$1 million or less and are either secured by nonfarm nonresidential properties or are classified as commercial and industrial loans.

Small Farm Loan: A loan included in “loans to small farms” as defined in the instructions for preparation of the Consolidated Report of Condition and Income (Call Report). These loans have original amounts of \$500,000 or less and are either secured by farmland, including farm residential and other improvements, or are classified as loans to finance agricultural production and other loans to farmers.

Underserved Middle-Income Nonmetropolitan Geographies: A nonmetropolitan middle-income geography will be designated as underserved if it meets criteria for population size, density, and dispersion indicating the area’s population is sufficiently small, thin, and distant from a population center that the tract is likely to have difficulty financing the fixed costs of meeting essential community needs.

Upper-Income: Individual income that is 120 percent or more of the area median income, or a median family income that is 120 percent or more in the case of a geography.

Urban Area: All territories, populations, and housing units in urbanized areas and in places of 2,500 or more persons outside urbanized areas. More specifically, “urban” consists of territory, persons, and housing units in places of 2,500 or more persons incorporated as cities, villages, boroughs (except in Alaska and New York), and towns (except in the New England states, New York, and Wisconsin).

“Urban” excludes the rural portions of “extended cities”; census designated place of 2,500 or more persons; and other territory, incorporated or unincorporated, including in urbanized areas.

GLOSSARY

Aggregate Lending: The number of loans originated and purchased by all reporting lenders in specified income categories as a percentage of the aggregate number of loans originated and purchased by all reporting lenders in the metropolitan area/assessment area.

Area Median Income: The median family income for the MSA, if a person or geography is located in an MSA; or the statewide nonmetropolitan median family income, if a person or geography is located outside an MSA.

Assessment Area: A geographic area delineated by the bank under the requirements of the Community Reinvestment Act.

Census Tract: A small, relatively permanent statistical subdivision of a county or equivalent entity. The primary purpose of census tracts is to provide a stable set of geographic units for the presentation of statistical data. Census tracts generally have a population size between 1,200 and 8,000 people, with an optimum size of 4,000 people. Census tract boundaries generally follow visible and identifiable features, but they may follow nonvisible legal boundaries in some instances. State and county boundaries always are census tract boundaries.

Combined Statistical Area (CSA): A combination of several adjacent metropolitan statistical areas or micropolitan statistical areas or a mix of the two, which are linked by economic ties.

Community Development: For loans, investments, and services to qualify as community development activities, their primary purpose must:

- (1) Support affordable housing for low- and moderate-income individuals;
- (2) Target community services toward low- and moderate-income individuals;
- (3) Promote economic development by financing small businesses or farms; or
- (4) Provide activities that revitalize or stabilize low- and moderate-income geographies, designated disaster areas, or distressed or underserved nonmetropolitan middle-income geographies.

Community Development Corporation (CDC): A CDC allows banks and holding companies to make equity type of investments in community development projects. Bank CDCs can develop innovative debt instruments or provide near-equity investments tailored to the development needs of the community. Bank CDCs are also tailored to their financial and marketing needs. A CDC may purchase, own, rehabilitate, construct, manage, and sell real property. Also, it may make equity or debt investments in development projects and in local businesses. The CDC activities are expected to directly benefit low- and moderate-income groups, and the investment dollars should not represent an undue risk on the banking organization.

Community Development Financial Institutions (CDFIs): CDFIs are private intermediaries (either for profit or nonprofit) with community development as their primary mission. A CDFI facilitates the flow of lending and investment capital into distressed communities and to individuals who have been unable to take advantage of the services offered by traditional financial institutions.

Some basic types of CDFIs include community development banks, community development loan funds, community development credit unions, micro enterprise funds, and community development venture capital funds.

A certified CDFI must meet eligibility requirements. These requirements include the following:

- Having a primary mission of promoting community development;
- Serving an investment area or target population;
- Providing development services;
- Maintaining accountability to residents of its investment area or targeted population through representation on its governing board of directors, or by other means;
- Not constituting an agency or instrumentality of the United States, of any state or political subdivision of a state.

Community Development Loan: A loan that:

- (1) Has as its primary purpose community development; and
- (2) Except in the case of a wholesale or limited purpose bank:
 - (i) Has not been reported or collected by the bank or an affiliate for consideration in the bank's assessment area as a home mortgage, small business, small farm, or consumer loan, unless it is a multifamily dwelling loan (as described in Appendix A to Part 203 of this title); and
 - (ii) Benefits the bank's assessment area(s) or a broader statewide or regional area including the bank's assessment area(s).

Community Development Service: A service that:

- (1) Has as its primary purpose community development;
- (2) Is related to the provision of financial services; and
- (3) Has not been considered in the evaluation of the bank's retail banking services under § 345.24(d).

Consumer Loan(s): A loan(s) to one or more individuals for household, family, or other personal expenditures. A consumer loan does not include a home mortgage, small business, or small farm loan. This definition includes the following categories: motor vehicle loans, credit card loans, home equity loans, other secured consumer loans, and other unsecured consumer loans.

Core Based Statistical Area (CBSA): The county or counties or equivalent entities associated with at least one core (urbanized area or urban cluster) of at least 10,000 population, plus adjacent counties having a high degree of social and economic integration with the core as measured through commuting ties with the counties associated with the core. Metropolitan and Micropolitan Statistical Areas are the two categories of CBSAs.

Distressed Middle-Income Nonmetropolitan Geographies: A nonmetropolitan middle-income geography will be designated as distressed if it is in a county that meets one or more of the following triggers:

- (1) An unemployment rate of at least 1.5 times the national average;
- (2) A poverty rate of 20 percent or more; or

- (3) A population loss of 10 percent or more between the previous and most recent decennial census or a net migration loss of 5 percent or more over the 5-year period preceding the most recent census.

Family: Includes a householder and one or more other persons living in the same household who are related to the householder by birth, marriage, or adoption. The number of family households always equals the number of families; however, a family household may also include non-relatives living with the family. Families are classified by type as either a married-couple family or other family. Other family is further classified into “male householder” (a family with a male householder and no wife present) or “female householder” (a family with a female householder and no husband present).

FFIEC-Estimated Income Data: The Federal Financial Institutions Examination Council (FFIEC) issues annual estimates which update median family income from the metropolitan and nonmetropolitan areas. The FFIEC uses American Community Survey data and factors in information from other sources to arrive at an annual estimate that more closely reflects current economic conditions.

Full-Scope Review: A full-scope review is accomplished when examiners complete all applicable interagency examination procedures for an assessment area. Performance under applicable tests is analyzed considering performance context, quantitative factors (e.g., geographic distribution, borrower profile, and total number and dollar amount of investments), and qualitative factors (e.g., innovativeness, complexity, and responsiveness).

Geography: A census tract delineated by the United States Bureau of the Census in the most recent decennial census.

Home Mortgage Disclosure Act (HMDA): The statute that requires certain mortgage lenders that do business or have banking offices in a metropolitan statistical area to file annual summary reports of their mortgage lending activity. The reports include such data as the race, gender, and the income of applicants; the amount of loan requested; and the disposition of the application (approved, denied, and withdrawn).

Home Mortgage Loans: Includes closed-end mortgage loans or open-end line of credits as defined in the HMDA regulation that are not an excluded transaction per the HMDA regulation.

Housing Unit: Includes a house, an apartment, a mobile home, a group of rooms, or a single room that is occupied as separate living quarters.

Limited-Scope Review: A limited scope review is accomplished when examiners do not complete all applicable interagency examination procedures for an assessment area. Performance under applicable tests is often analyzed using only quantitative factors (e.g., geographic distribution, borrower profile, total number and dollar amount of investments, and branch distribution).

Low-Income: Individual income that is less than 50 percent of the area median income, or a median family income that is less than 50 percent in the case of a geography.

Low Income Housing Tax Credit: The Low-Income Housing Tax Credit Program is a housing program contained within the Internal Revenue Code of 1986, as amended. It is administered by the U.S. Department of the Treasury and the Internal Revenue Service. The U.S. Treasury Department distributes low-income housing tax credits to housing credit agencies through the Internal Revenue Service. The housing agencies allocate tax credits on a competitive basis.

Developers who acquire, rehabilitate, or construct low-income rental housing may keep their tax credits. Or, they may sell them to corporations or investor groups, who, as owners of these properties, will be able to reduce their own federal tax payments. The credit can be claimed annually for ten consecutive years. For a project to be eligible, the developer must set aside a specific percentage of units for occupancy by low-income residents. The set-aside requirement remains throughout the compliance period, usually 30 years.

Market Share: The number of loans originated and purchased by the institution as a percentage of the aggregate number of loans originated and purchased by all reporting lenders in the metropolitan area/assessment area.

Median Income: The median income divides the income distribution into two equal parts, one having incomes above the median and other having incomes below the median.

Metropolitan Division (MD): A county or group of counties within a CBSA that contain(s) an urbanized area with a population of at least 2.5 million. A MD is one or more main/secondary counties representing an employment center or centers, plus adjacent counties associated with the main/secondary county or counties through commuting ties.

Metropolitan Statistical Area (MSA): CBSA associated with at least one urbanized area having a population of at least 50,000. The MSA comprises the central county or counties or equivalent entities containing the core, plus adjacent outlying counties having a high degree of social and economic integration with the central county or counties as measured through commuting.

Micropolitan Statistical Area: CBSA associated with at least one urbanized area having a population of at least 10,000, but less than 50,000.

Middle-Income: Individual income that is at least 80 percent and less than 120 percent of the area median income, or a median family income that is at least 80 and less than 120 percent in the case of a geography.

Moderate-Income: Individual income that is at least 50 percent and less than 80 percent of the area median income, or a median family income that is at least 50 and less than 80 percent in the case of a geography.

Multi-family: Refers to a residential structure that contains five or more units.

Nonmetropolitan Area (also known as **non-MSA**): All areas outside of metropolitan areas. The definition of nonmetropolitan area is not consistent with the definition of rural areas. Urban and rural classifications cut across the other hierarchies. For example, there is generally urban and rural territory within metropolitan and nonmetropolitan areas.

Owner-Occupied Units: Includes units occupied by the owner or co-owner, even if the unit has not been fully paid for or is mortgaged.

Qualified Investment: A lawful investment, deposit, membership share, or grant that has as its primary purpose community development.

Rated Area: A rated area is a state or multistate metropolitan area. For an institution with domestic branches in only one state, the institution's CRA rating would be the state rating. If an institution maintains domestic branches in more than one state, the institution will receive a rating for each state in which those branches are located. If an institution maintains domestic branches in two or more states within a multistate metropolitan area, the institution will receive a rating for the multistate metropolitan area.

Rural Area: Territories, populations, and housing units that are not classified as urban.

Small Business Investment Company (SBIC): SBICs are privately-owned investment companies which are licensed and regulated by the Small Business Administration (SBA). SBICs provide long-term loans and/or venture capital to small firms. Because money for venture or risk investments is difficult for small firms to obtain, SBA provides assistance to SBICs to stimulate and supplement the flow of private equity and long-term loan funds to small companies. Venture capitalists participate in the SBIC program to supplement their own private capital with funds borrowed at favorable rates through SBA's guarantee of SBIC debentures. These SBIC debentures are then sold to private investors. An SBIC's success is linked to the growth and profitability of the companies that it finances. Therefore, some SBICs primarily assist businesses with significant growth potential, such as new firms in innovative industries. SBICs finance small firms by providing straight loans and/or equity-type investments. This kind of financing gives them partial ownership of those businesses and the possibility of sharing in the companies' profits as they grow and prosper.

Small Business Loan: A loan included in "loans to small businesses" as defined in the Consolidated Report of Condition and Income (Call Report). These loans have original amounts of \$1 million or less and are either secured by nonfarm nonresidential properties or are classified as commercial and industrial loans.

Small Farm Loan: A loan included in "loans to small farms" as defined in the instructions for preparation of the Consolidated Report of Condition and Income (Call Report). These loans have original amounts of \$500,000 or less and are either secured by farmland, including farm residential and other improvements, or are classified as loans to finance agricultural production and other loans to farmers.

Underserved Middle-Income Nonmetropolitan Geographies: A nonmetropolitan middle-income geography will be designated as underserved if it meets criteria for population size, density, and dispersion indicating the area's population is sufficiently small, thin, and distant from a population center that the tract is likely to have difficulty financing the fixed costs of meeting essential community needs.

Upper-Income: Individual income that is 120 percent or more of the area median income, or a median family income that is 120 percent or more in the case of a geography.

Urban Area: All territories, populations, and housing units in urbanized areas and in places of 2,500 or more persons outside urbanized areas. More specifically, "urban" consists of territory, persons, and housing units in places of 2,500 or more persons incorporated as cities, villages, boroughs (except in Alaska and New York), and towns (except in the New England states, New York, and Wisconsin).

"Urban" excludes the rural portions of "extended cities"; census designated place of 2,500 or more persons; and other territory, incorporated or unincorporated, including in urbanized areas.

First Bank Chicago

Opened/Closed Branches

No new branches have been opened and no branches have been permanently closed during the following periods:

-
- January 1, 2022 -- December 31, 2022
- January 1, 2023 -- December 31, 2023
- January 1, 2024 -- December 31, 2024
- January 1, 2025 -- March 31, 2025

First Bank Chicago

Deposit Products and Other Services

As of March 2025

Savings Accounts

Available to consumer and commercial clients:

- **FREE Savings** – A basic savings option with interest paid monthly and no monthly fee.
- **Prime Savings** – A tiered variable rate savings option with interest paid monthly.

Available to consumer clients only:

- **My First Account**– A savings account option specifically for minors.
- **IRA Savings** – A savings option for IRA contributions.
- **FREE Savings / Individual Development Savings Program (IDA)** – An interest-bearing savings account for individuals pre-approved and enrolled in a bank developed IDA Savings Program.

Checking Accounts

Available to consumer clients:

- **FREE Checking** – A basic checking option with no monthly fees.
- **Interest Checking**– An interest bearing checking option that requires direct deposit.
- **Interest Plus Checking** – A tiered variable rate interest earning checking account, with additional benefits.
- **Student e-Banking**– A standard checking option for young adults.
- **All Star e-Banking**– A basic checking account with a low minimum opening deposit and no monthly or overdraft fees.
- **Private Checking** - A tiered variable rate interest earning checking account, with additional benefits.
- **Health Savings Account** – A medical savings option with check writing and debit card benefits to pay for qualified medical expenses.

Available to commercial clients:

- **Community Partners Non-Profit Checking** – An interest-bearing checking account for non-profit organizations.
- **Community Business Checking** – A basic non-interest-bearing checking account with for businesses with low transaction volumes.
- **Commercial Checking** – A basic checking option for businesses with high transaction volumes.
- **Advanced Business Checking** – A non-interest-bearing checking account for businesses with high transaction volumes and a need for Treasury Management Solutions.
- **High Balance High Yield Commercial Checking**
- **IOLTA Trust Fund Account** -- “IOLTA” stands for Interest on Lawyer Trust Accounts. An IOLTA account is a pooled, interest-bearing demand deposit account used by lawyers to hold client funds.
- **ICS (Insured Cash Sweep) Product**
- **Business Advantage Account** – a tiered interest-bearing checking account.

Deposit Products and Other Services (continued)

As of March 2025

Money Market Accounts

- **Personal Money Market** (consumer) – An interest-bearing account with check writing privileges.
- **Preferred Business Money Market** (commercial) – A tiered variable rate interest-bearing account with check writing privileges.

Certificates of Deposit

Available to both consumer and commercial clients. There are a variety of terms available for each category of Certificate of Deposit.

- **Standard Certificates of Deposit**
- **Special Certificates of Deposit**
- **Individual Retirement Account (IRA) Certificates of Deposit**

Retirement Accounts

Specialized tax advantage accounts available to individual consumer clients only.

- **Traditional**
- **Roth**
- **Simplified Employee Pension (SEP)**
- **Coverdell Education Savings Account (CESA)**

Electronic Services

Available to consumer and commercial clients:

As of March 2025

Home Equity Term Loan

These loans are secured by the equity in a borrower's home. The proceeds of these loans may be utilized for any purpose.

Origination Fees: None

Release Fee: A \$125.00 fee is incurred by borrower at the time of account closing.

The borrower may also incur the additional responsibility for expenses such as, but not limited to, title associated fees charged by a Title Company and/or other third-party providers.

Home Equity Lines of Credit

These loans are secured by the equity in a borrower's home. The proceeds of these loans may be utilized for any purpose. Home Equity Lines of Credit allow the borrower convenient accessibility of proceeds by check or transfer to an account at any time.

Origination Fee – Credit Limit up to \$750,000: None

Origination Fee – Credit Limit greater than \$750,000: None

Annual Fee: \$50.00, waived the 1st year, then due each year beginning on the first anniversary of your account opening and on each anniversary date thereafter

Stop Payment Fee: \$30.00 when you request a stop payment on your account

Subordination Fee: \$300.00 When the request is made for a senior lien on your house

Release Fee: A \$125.00 fee is incurred by borrower at the time of account closing.

The Home Equity Line of Credit is subject to an early account-closing fee. In the event a Home Equity Line of Credit is closed within 36 months of origination a fee of \$500.00 or 2% of the Credit Limit (whichever is less) is charged.

If the loan closes at a title company, Borrower may also incur the additional responsibility for expenses such as, but not limited to, title associated fees and closing fees charged by the title company and/or other third-party providers which will generally total between \$0.00 and \$2,000.00.

Consumer Loan Products and Fees (continued)

As of March 2025

Installment Loans

This financing is established for a certain amortization and may be utilized to finance a major consumer need such as the purchase of a vehicle.

Origination Fee: None

The borrower may also incur the additional responsibility for expenses incurred by Lender to perfect its lien on collateral pledged.

Line of Credit

This financing is typically established for one year with interest only payments due monthly. Funds up to the maximum credit can be advanced and repaid throughout the term of the loan.

Origination Fee: None

The borrower may also incur the additional responsibility for expenses incurred by Lender to perfect its lien on collateral pledged.

Single Payment Loan

This financing is typically established for one year with interest only payments due monthly.

Origination Fee: None

The borrower may also incur the additional responsibility for expenses incurred by Lender to perfect its lien on collateral pledged.

CD Secured Loans

These loans are for consumers in which a Certificate of Deposit is pledged as collateral. The loan term must not exceed the term of the pledged Certificate of Deposit.

Origination Fee: None

Other Fees: None

The borrower may also incur a penalty in the event the certificate of deposit is closed prior to maturity.

The Bank reserves the right to change loan products and fees at its discretion.

First Bank Chicago

HOME MORTGAGE DISCLOSURE ACT NOTICE

The HMDA data about our residential mortgage lending are available online for review. The data show geographic distribution of loans and applications; ethnicity, race, sex, age, and income of applicants and borrowers; and information about loan approvals and denials. HMDA data for many other financial institutions are also available online. For more information, visit the Consumer Financial Protection Bureau's Web site (www.consumerfinance.gov/hmda).

Loans by County

Small Business Loans - Originations

Institution: FIRST BANK CHICAGO

Respondent ID: 0000017470

Agency: FDIC - 3

State: CALIFORNIA (06)

Footnote:

10. A validity edit helps to verify the accuracy of the data reported. An institution's CRA submission that passes all validity edits does not ensure 100% accurate data. True accuracy is determined during the examination process.

11. A record represents one row of data reported to the Federal Reserve Board. This does not in any way represent the number of loans originated or purchased by the institution.

Footnote:

10. A validity edit helps to verify the accuracy of the data reported. An institution's CRA submission that passes all validity edits does not ensure 100% accurate data. True accuracy is determined during the examination process.

11. A record represents one row of data reported to the Federal Reserve Board. This does not in any way represent the number of loans originated or purchased by the institution.

Loan to Deposit Ratios
